Software Developer

Software Developer with a strong foundation in Java, React.js, and cloud technologies, seeking to apply my skills in full-stack development at a dynamic, growth-oriented tech company.

WORK EXPERIENCE

IBM • Quezon City, National Capital Region, Philippines · Hybrid • Oct 2022 - Jan 2023

IBM Consulting Intern: Developer-Cloud FullStack

- Developed cloud-based applications using Spring Boot and React, enhancing user experience by 15%.
- Collaborated with cross-functional teams to implement API solutions for client-specific needs.

Metrobank • Philippines · Remote • Sep 2021 - Dec 2021

Information Technology Internship

- Assisted in database management and troubleshooting, improving data retrieval speeds by 10%.

PROJECTS

ShipWreck • Jan 2024

- Developed using Godot 4 for a game jam, featuring rogue-like elements and enemy AI.

REALIFS: Real-time Integrated Fetching System for Online Donation Platform •
Aug 2021 - Mar 2022

- Utilized React-Native and Firestore to create a real-time donation platform with features such as authentication, tracking and wallet integration.

SoloBit: An E-Commerce Website, Solo Project •
Aug 2020 - Feb 2021

- Developed an e-commerce website to gain proficiency in PHP before transitioning to Java. Key features include user authentication, item search, add/remove to cart functionality, and checkout process.

Myxa – Meal kit Delivery Application • Jan 2019 - Mar 2019

- Designed and developed a meal kit delivery app with authentication, cart, and location tracking features using Android development tools.

Centralized Community Forum Web Application (BantayBayan) •
Oct 2017 - Dec 2017

- Developed a Management Information System using Java JSP and MySQL. Key features include user authentication, a news feed, a community forum, and email alert for streamlined issue reporting and resolution.

SKILLS

Soft Skills: Adaptability, Self-Motivation, Attention to detail, Communication, Critical Thinking
